From the CEO:

It's hard to believe that one year has passed since I became the fourth Chief Executive Officer of the Jefferson County CAC. I guess time really does fly when you're having fun. I would like to thank the CAC Board of Directors and the staff for allowing a smooth transition into this new position.

Over the past year we have seen budget cuts across the board forcing us to do more with less. Gauging the temperature in DC there will most likely be additional budget cuts in our future. However, I am urging everybody to remain positive because we have been here before and we will get through this together. Although we may have to tighten our purse strings, I am confident that we will continue to serve the needs of Jefferson County residents.

In conclusion, I would just like to say thank you for all that you do. The work that each of you do is not easy and does not go unnoticed.

HEAP SUMMER CRISIS

The Home Energy Assistance Summer Crisis Program provides a one-time benefit to eligible Ohioans with cooling assistance during the summer months. The program runs from July 1st to September 30th.

The focus of the Summer Crisis Program is to provide assistance with electric utility bills, central air conditioning repairs, and air conditioning unit and/or fan purchases. Households with a household member who is either 60 years of age and older, or has a certified medical condition, and households who have a disconnect notice, have been shut off, or are trying to establish new electric service may be eligible for assistance. Ohioans enrolled in the Percentage of Income Payment Plan Plus (PIPP) Program are eligible for assistance towards central air conditioning repairs, or may receive an air conditioning unit and/or fan.
