## WHAT'S NEW?

WIOA Staff tested out our new Virtual Learning devices.

Scalable, portable simulations provide a safe environment for learners to practice and master new skills and achieve standardization through consistent training. Modules can assist in upskilling existing staff for redeployment/reassignment to meet emergent organizational needs.

These devices will provide 23 different modules and will be used for all programs including for WIOA youth, Adult/Dislocated and Fresh Start. We will be working with the local schools and libraries soon as well.

We are so happy to welcome Lori Hawthorne back, our Pathway Home Reentry Follow up/ TYRO Coordinator! Lori started her new position January 23<sup>rd</sup>, 2023.
