October 17 - Robyn Gillette
October 22 - Mike Cernansky

Monthly Program Highlight

Home Weatherization Assistance Program (HWAP)

The busy crew that operates this program works year round to make the homes of income eligible participants more energy efficient. Towards that end, they insulate attics, blow cellulose into side walls, caulk windows and doors, and take any other practical measures to minimize or stop cold air infiltration. Furnaces are checked and repaired or replaced under this program, as well.

Eligibility is determined by ranking on a point system, and can be awarded to either home owners or tenants. Priority is extended to low-income, elderly, and citizens with disabilities. HWAP is funded by the Ohio Department of Development through C.O.A.D. Additional funds are provided through Columbia Gas Warm Choice Program and American Electric Power (A.E.P.) and the Targeted Energy Efficiency Program (T.E.E.)

Tod Miller; HWAP Director – 740-282-0971 ext. 167

Trudy Lash; Office Manger –740-282-0971 ext. 140
